WHY A SOLID GUARD ?

There are many road conditions in North America and when you travel to the lake or just go fishing for the weekend you want the maximum protection for your boat . The MR360-A Boat Guard does the job.

The MR360-A stops rocks , sand, mud, road tar or just about anything on the road. It is impervious to all solvents and liquids. It can be cleaned with steam or high pressure washers without damage .

The MR360-A will keep your boat looking new for years and this will make your boat keep it's value for many years.
